

The FM35 is a simple to use hand-held food thermometer featuring a large LCD display, rubber boot and On/Off key making it ideal for use in any food environment.

The instrument can be used with an option on probes to include general purpose and air probes to enable the user to quickly and accurately measure different temperature requirements. These are connected via a simple lumberg plug.

The FM35's protective rubber boot can prevent accidental damage if the instrument is dropped and is an essential part of any busy kitchen.

The FM35 comes complete with a general purpose probe.

General Specification

Water Resistant:	Yes
Auto Off:	Yes (after 3 minutes)
Open Circuit Indication:	Yes
Connector Type:	Lumberg
Range:	-40°C to 110°C/-40°F to 230°F
Accuracy:	±0.5°C (0° to 70°C) ±1°C elsewhere ±0.9°F (32° to 158°C) ±1.8°F elsewhere
Battery:	1x 9V included
Battery Life:	3000 hours approx. continuous use

Accessories

Probes

- FM35-GP – FM35 General Purpose Probe. Thermistor sensor. Coiled cable
- FM35-AP – FM35 Fast Response Flexible Air Probe. Thermistor sensor

Test Caps

- FM35CC1 – Test cap, -18°C for FM35
- FM35CC2 – Test cap, 0°C for FM35
- FM35CC3 – Test cap, +70°C for FM35
- FM35CC4 – Test cap, +100°C for FM35

Key Features and Benefits

- Open probe indication
- Lumberg connector
- Long battery Life
- Rubber Boot

Main Applications

A world leader in digital thermometers, Rototherm has become the standard for accurate and reliable measurement across the following industries:

Food Service, Retail
& Catering
